ABOUT ME

I completed my higher secondary education at Govt. Model Higher Secondary School No.1, Rajanpur District, achieving **93%** in **SSC/Matriculation** and **83%** in **HSSC/Intermediate**. Currently, I'm working on my computing skills (Web Development, Machine Learning, and Artificial Intelligence). I have good knowledge of the Python Programming language and languages used for Web development, like HTML, CSS, and JavaScript.

I chose the computing field because of its rapidly growing scope, both now and in the future. Actually, I like solving problems, and programming gives me that opportunity. I enjoy fixing errors/bugs and seeing my work finally run smoothly. That's why I chose this career.
